MESSAGE FROM COUNTRY DIRECTOR

Sandip Gupta

Country Director

This year has been a year of clarity and of preparing ourselves for something greater than before. There comes a time in every organization when growth is no longer just about expanding activities; it is about being truly ready. Ready to scale with integrity. Ready to lead with conviction. Ready to take on a larger role in the development landscape of our country.

For Good Neighbors Bharat, that time is now.

In 2024, we reached close to 5,000 individuals. Today, we directly impact over 10,000 children and community members. This growth is encouraging. More importantly, it reflects stronger institutional systems, deeper trust within the communities we serve, and a team committed to continuous improvement.

Over the past year, we have strengthened our institution from within. Our team has expanded, and we have welcomed interns and volunteers whose energy and creativity remind us that development is a shared responsibility.

Our journey has also led us to reflect. For years, we responded wherever support was needed, strengthening schools, supporting families, and enabling livelihoods, always guided by purpose and compassion. As we grew, we recognized an important truth: growth without structure limits long-term impact. Good intentions alone are not enough to sustain scale.

This realization became a turning point. With the development of our Country Strategic Plan and Integrated Development Model, we have moved from responsive implementation to intentional design. Our signature initiatives: the Good School Project, Kaushal (Skill) Connect, and the Good Village Project; now serve as structured, need-based frameworks guiding our work. From here onward, all projects will align under these defined program pillars, ensuring consistency across geographies, stronger monitoring systems, and long-term community ownership. This shift is more than structural. It reflects our commitment to building models that communities can sustain independently.

We are also expanding our geographical footprint by initiating new project sites in Chennai, Tamil Nadu, and Sri City, Andhra Pradesh.

Institutionally, 2026 will be a milestone year. We are on track to receive our CSR license and will be eligible to apply for our FCRA license. These steps strengthen our governance and open new avenues for responsible growth.

Recognizing the immense opportunity within India's \$3.5 billion CSR ecosystem, we have established a dedicated CSR & HNI Desk to engage corporates and high-net-worth individuals with professionalism, transparency, and measurable impact. At the same time, our individual and retail giving initiatives through structured street campaigns and events are being strengthened to mobilize greater domestic participation in our mission.

What gives me confidence is our preparedness in strategy, in our team, and accountability toward the communities we serve and the partners who stand with us.

As Country Director, I am proud of the progress we have made and mindful of the responsibility ahead. We remain committed to building an institution that listens carefully, plans thoughtfully, and acts responsibly.

To our sponsors, Global Partnership Center, Regional Director, partners, and stakeholders — thank you for your continued trust. Together, we are turning intention into action and action into lasting change.

With gratitude and renewed determination,

Country Director

Thanks letter by Country Representatives

Letter Form / 작성 양식

Dear Sponsors,

Warm greetings from Good Neighbors India.

On behalf of Good Neighbors India, I would like to express my deepest gratitude for your generous and unwavering support of children who have now reached the age of 18 and are completing their sponsorship journey. Your commitment has been a source of hope and opportunity for thousands of children from vulnerable families, helping them build brighter futures and pursue their dreams with confidence.

Thanks to your support, many children who once faced barriers such as poverty, limited educational opportunities, and social challenges have been able to remain in school, improve their well-being, and develop the skills needed for a successful future.

Beyond educational support, sponsored children have benefited from health and nutrition programs, regular health awareness activities, menstrual hygiene management initiatives, child protection interventions, psychosocial support, and WASH programs. These efforts have helped children grow in safer, healthier, and more supportive environments. Through community-based interventions, families have gained greater awareness of children's rights, health, hygiene, and the importance of education, creating lasting positive change within their communities.

Throughout the sponsorship journey, Good Neighbors India has closely monitored children's growth and development through regular home visits, school follow-ups, counselling sessions, and engagement with parents, teachers, and community members.

As children approach adulthood, Good Neighbors India places special emphasis on strengthening their self-reliance and future readiness. Sponsored adolescents have benefited from career guidance, vocational skills training, digital literacy programs, life-skills education, leadership development activities, and career exploration opportunities helping young people gain confidence, practical skills, and the knowledge needed to make informed decisions about their future.

Many of our sponsored youth choose to continue their education by enrolling in colleges or vocational institutions. Others pursue employment opportunities after completing vocational training programs in fields such as information technology, tailoring, beauty and wellness, retail services, and technical trades. Through guidance and mentoring, we help them navigate these important transitions toward independent adulthood.

One inspiring example is a sponsored girl from a low-income family who faced financial barriers that threatened her education. With the continuous support of her sponsor, educational assistance, and encouragement from Good Neighbors India, she remained committed to her studies and worked diligently toward her goals. Her perseverance paid off when she achieved outstanding results in her board examinations, becoming one of the top-performing students in her school. Her achievement not only brought pride to her family but also inspired other girls in her community to continue their education and believe in their potential. Today, she is pursuing higher education with confidence and aspirations for a successful future, demonstrating how sponsorship can transform determination into achievement.

Although children's sponsorship support formally concludes when they reach the age limit, Good Neighbors India remains committed to supporting their successful transition into adulthood. For youth whose competencies are still developing, we continue providing opportunities through our youth empowerment programs, including vocational skills training, life skills education, career guidance, digital literacy, leadership development activities, and where possible, employment and internship opportunities. We also connect youth with educational institutions, employers, community-based support systems, and relevant service providers to strengthen their independence, resilience, and long-term opportunities.

The impact of your support reaches far beyond individual children. It strengthens families, inspires communities, and creates opportunities that can transform lives for generations. Every school graduation, every new skill learned, every healthy child, and every young adult confidently pursuing their future reflects the positive difference your generosity has made.

As these young people take the next step in their journey toward adulthood, we would like to express our sincere appreciation for your trust, kindness, and long-term commitment. Your support has helped nurture capable, compassionate, and resilient young adults who are prepared to contribute positively to their families and communities.

Thank you for believing in our children.

Thank you for investing in their potential.

Together, we are not only supporting children—we are helping shape future teachers, healthcare workers, entrepreneurs, skilled professionals, community leaders, and changemakers across India.

Thank you for walking alongside our children throughout their growth journey. Your trust, generosity, and long-term commitment continue to create meaningful and lasting change in the lives of children, families, and communities across India.

With sincere appreciation,

Country Representative
Good Neighbors India

About GOOD NEIGHBORS

Good Neighbors is a global humanitarian organization founded in the Republic of Korea in 1991, working in over 50 countries around the world. Good Neighbors has attained General Consultative Status with United Nations Economic and Social Council (UN ECOSOC) in 1996. In recognition of valuable efforts in providing universal primary education over the world, Good Neighbors was awarded by the Millennium Development Goals (MDG) Award by international Association of Economic and Social Councils and Similar Institutions (AICESIS) in 2007

Mission:

- Good Neighbors exists to make the world a place without hunger, where people live together in harmony
- Good Neighbors respects the human rights of our neighbors suffering from poverty, disasters, and oppression, helps them to achieve self-reliance and enables them to rebuild their hope

Good Neighbors in India

In 2009, Good Neighbors began its work in India, focusing on uplifting migrant, rural, ethnic, and nomadic communities. Our initiatives are primarily concentrated in Karnataka, Tamil Nadu, Delhi and Andhra Pradesh, where we provide education, healthcare, vocational opportunities, and community empowerment programs to improve the lives of children and families.

Achchhe Padosi Samajik Seva Foundation, formerly known as the Global Foundation of Good Neighbors, is a registered non-governmental organization established under Section 8 of the Companies Act, 2013, with its headquarters in New Delhi, India. Operating as an independent entity, Achchhe Padosi aligns with the global development vision of Good Neighbors, a global humanitarian organization founded in 1991 that operates in over 50 countries to build a world free from hunger, where people live together in harmony.

EDUCATION PROGRAM

Achchhe Padosi Samajik Seva Foundation remains committed to ensuring that every child has access to quality, inclusive, and safe education. Our programs focus on removing barriers to learning and creating supportive environments where children can thrive academically and personally.

In 2025, Good Neighbors Bharat

2453

No. of school-age children with improved access to quality education

25

No. of children who received after school tutoring

910

Received Education material support

Under the SkillEd project, Achchhe Padosi Samajik Seva Foundation, in partnership with EFICOR, implemented an After-School Tutoring Programme to support 25 children from vulnerable urban communities in strengthening their academic foundations. The programme provided structured small-group tutoring in core subjects and foundational learning skills, helping address learning gaps caused by limited academic support and disruptions in schooling.

Through regular sessions in a safe and supportive environment, children showed noticeable improvement in their learning levels, classroom participation, and confidence in subjects such as mathematics and language. Many students became more engaged in their studies and developed regular study habits, which also contributed to improved school attendance. Parents shared positive feedback, noting that their children became more motivated to study and demonstrated greater interest in their education. This initiative helped strengthen educational continuity and supported equitable access to quality learning opportunities

EMPOWERING EDUCATION WITH A BETTER LEARNING SPACE

SEATS OF HOPE

250

Students benefitted from the support

14

Bench & desk set supported

Through the Seats of Hope project, support was extended to improve classroom infrastructure by providing desks and benches to a government school, addressing a critical gap in the learning environment. Prior to the intervention, inadequate and worn-out classroom furniture limited students' comfort and ability to focus during lessons, directly affecting the quality of learning.

The provision of new desks and benches created safer, more organized, and child-friendly classrooms, enabling students to sit comfortably, maintain proper posture, and engage more actively in academic activities. Teachers were also better supported in managing classrooms efficiently, contributing to improved teaching-learning processes.

This intervention strengthened the overall school learning environment, benefiting both students and teachers. By investing in basic yet essential infrastructure, the Seats of Hope project reinforced the belief that dignified learning spaces are foundational to quality education, inclusion, and long-term academic success.

SPONSORSHIP SERVICES

In 2025, the program directly supported 621 children through the sponsorship initiative. The program continued to support sponsored children through a comprehensive package of services, including access to education materials and uniforms, regular health check-ups, home visits, and individualized counseling, ensuring that each child receives care tailored to their needs.

Anchored in the Child-Centered Community Development (CCCD) approach, the sponsorship program goes beyond individual assistance by placing children at the heart of community development initiatives. By addressing systemic challenges within families and communities, the program promotes sustainable and inclusive progress that enables children to grow in safe, nurturing, and empowering environments. In 2025, the program directly supported 621 sponsored children, strengthening their resilience and creating pathways for long-term well-being and opportunity.

EDUCATIONAL MATERIAL SUPPORT

The Educational Material Support Program was to ensure that children from vulnerable and underserved communities can continue their education with dignity, confidence, and equal opportunity.

Children from low-income households often face significant barriers to learning due to the lack of basic school supplies and essential well-being items. This program was designed to address these challenges by providing comprehensive educational and health-related support, enabling children to attend school regularly and participate effectively in learning.

Through the initiative, 681 children received educational support kits containing notebooks, pencils, pens, geometry boxes, mosquito nets, 1,000 ml reusable water bottles, and durable carry bags. The provision of these materials reduced the financial burden on families and allowed parents and caregivers to prioritize their children's education.

In addition to improving access to learning materials, the inclusion of mosquito nets and reusable water bottles contributed to better health, hygiene, and protection, helping to reduce illness-related absenteeism and promote safer learning environments at home and in school. Overall, the program strengthened school readiness, boosted children's motivation and self-esteem, and supported more consistent school attendance. By addressing both educational and well-being needs, the initiative reinforced our commitment to inclusive and equitable quality education—ensuring that no child is left behind.

A JOURNEY OF DETERMINATION: GEETHIKA'S SUCCESS STORY

For many children from economically vulnerable families, continuing their education can be difficult due to financial limitations and lack of academic support. However, with the right guidance and encouragement, children can overcome these challenges and achieve their dreams.

Geethika is one such inspiring example. A sincere and determined student, she recently scored 585 marks in her SSC (Secondary School Certificate) examination, bringing immense pride to her family and community. Her success did not come easily. Like many children from under-resourced backgrounds, Geethika faced several challenges while continuing her studies.

Through the educational support provided by Good Neighbors Bharat, Geethika received the encouragement and academic guidance she needed to stay motivated and focused on her goals. The program created a supportive learning environment that helped her strengthen her confidence and dedication toward her studies.

With consistent effort and determination, Geethika worked hard throughout the year. Her commitment to learning eventually paid off when she achieved this remarkable result in her SSC examination.

Geethika's achievement is not only a personal milestone but also an inspiration for other children in her community. Her journey shows how the right support at the right time can empower a child to succeed and build a brighter future.

"We are very proud of Geethika's achievement. The support from Good Neighbors Bharat has helped our child continue her education with confidence.

We sincerely thank the organization for guiding and encouraging children like her.

ADVOCACY PROGRAM

The advocacy programs were undertaken to create safe, inclusive, and child-friendly environments. These initiatives focused on promoting and protecting children's rights at both school and community levels. Children were encouraged to voice their opinions and actively engage in issues affecting their lives. These efforts contributed to nurturing environments where children feel respected, heard, and empowered.

program

Your voice and Thought

Your Voice and Thought Programme to promote child participation and create safe spaces for children to express their views, concerns, and ideas. Through structured awareness sessions, children were informed about their rights and encouraged to speak up on issues affecting their education, safety, and well-being.

To ensure children could share feedback freely and without fear, suggestion boxes were introduced as a confidential and child-friendly mechanism. The programme helped build children's confidence, self-expression, and decision-making skills, fostering a more inclusive and responsive environment where children's voices are valued and respected

The programme aligns with India's priority of strengthening child participation and protection, while building children's confidence and self-expression. It also contributes to Sustainable Development Goal 16 and Sustainable Development Goal 4 by promoting safe and inclusive learning environments.

1731

students were empowered to express their thoughts and opinions.

CHILD PARLIAMENT PROGRAM

At a government high school in Sodenhalli, India, many students once believed that decisions about school life were meant only for teachers and adults. Children noticed everyday issues—such as unmanaged waste, safety concerns, and the lack of greenery—but rarely felt confident enough to raise their voices or take action.

This began to change with the introduction of the Child Parliament Strengthening Program, which aimed to promote meaningful child participation and leadership within the school system. The program created a platform where children could express their views, identify problems, and actively contribute to improving their school environment.

840

No. of Child parliament member

When Children Take Part in Decisions That Matter

Yashaswini, a 14-year-old student, experienced this change firsthand. Once hesitant to speak, she gained confidence through the Child Parliament and was elected as the Defense Minister of her school. In this role, she helped introduce a suggestion and complaint box, supported safety measures during school assemblies, and ensured corridors and emergency exits remained clear.

Through the Child Parliament, students also participated in activities such as digital safety awareness, first-aid training, tree plantation, and climate action initiatives, while teachers were oriented to promote child participation and inclusive practices. For Yashaswini and her peers, the impact extended beyond school improvements.

The program strengthened their confidence, communication skills, and sense of responsibility, transforming schools into spaces where children actively contribute to positive change rather than remaining passive recipients.

Digital Awareness

"Think before you click"

The program "Think Before You Click: Be Digitally Responsible" was designed to raise awareness among students about safe and responsible use of digital platforms. With the growing influence of social media and online spaces in young people's lives, the initiative focused on educating students about potential risks such as cyberbullying, misinformation, privacy breaches, and digital addiction. The program aimed to build awareness and equip students with basic knowledge to navigate the digital environment safely.

Through interactive sessions, workshops, discussions, and practical demonstrations, students were introduced to key concepts of digital safety, online privacy, and responsible digital behavior. The program encouraged participants to think critically before sharing information online and to adopt positive digital habits, contributing to the development of responsible digital citizens.

GENDER SENSITIZATION WORKSHOP

Under the SkillEd: Empowerment through Education and Vocational Training project, Good Neighbors Bharat, in partnership with EFICOR, conducted Gender Sensitization Workshops to promote equality, respect, and positive attitudes among children and adolescents. Through interactive and age-appropriate sessions, participants explored gender roles, stereotypes, mutual respect, and shared responsibilities, fostering empathy and non-discriminatory behavior. The initiative contributed to creating inclusive learning environments and positive social norms, aligning with Sustainable Development Goal 5 – Gender Equality and Sustainable Development Goal 4 – Quality Education.

ADVOCACY ON ENVIRONMENT

As part of the program's environmental advocacy component, schools were supported with waste segregation dustbins to encourage proper waste management and environmentally responsible behavior among students. In addition, a tree plantation drive was conducted with the active participation of children, reinforcing the importance of environmental stewardship. These initiatives provided practical opportunities for students to translate their ideas into action and strengthened their sense of ownership over the school environment.

The initiative also contributes to the goals of Swachh Bharat Mission by promoting waste segregation and cleanliness, and supports the objectives of National Mission for Green India through tree plantation and environmental conservation efforts.

HEALTH PROGRAM

In 2025, Good Neighbors Bharat

3200

No. of participants
benefitted from the
health camp

889

Children received
awareness sessions
on nutrition.

The Health Program is designed to enhance access to essential health services for underserved communities. It promotes awareness on nutrition, hygiene, and healthy lifestyle practices. Special emphasis is placed on preventive healthcare to reduce disease risks. The program engages both children and community members through targeted interventions.

HEALTH CAMP

Health camps were organized to improve children's access to essential health services and early health screening. The camps provided basic medical check-ups, including general health assessments and referrals where required, helping identify health concerns at an early stage.

Through these camps, children and caregivers became more aware of common health issues and the importance of timely medical care. The initiative contributed to improved health awareness, early detection of health conditions, and strengthened linkages between schools, communities, and health services, supporting children's overall well-being and regular school attendance.

nutrition

483

Children
received
nutritional
support

The Nutritional Orientation program was conducted to improve children's understanding of healthy eating habits and the importance of balanced nutrition for growth and learning. Many children and caregivers had limited awareness of affordable, nutritious food options, often leading to irregular meals, poor dietary diversity, and low energy levels among children.

Through interactive orientation sessions, children were introduced to basic nutrition concepts, including balanced diets, the importance of fruits and vegetables, adequate hydration, and safe food practices. The sessions emphasized practical, locally available food choices that families could easily adopt in their daily lives.

Teachers and caregivers were also engaged to reinforce healthy eating practices at school and at home. As a result, children demonstrated improved awareness of nutritious foods, healthier meal choices, and greater enthusiasm toward maintaining good eating habits.

STRENGTHENING HEALTH AND SAFETY IN SCHOOLS

9

First Aid Kits were provided to government schools.

1475

Number of people who benefited from First Aid kit support.

First aid kits were provided to schools to strengthen their readiness to manage minor injuries and health emergencies during school hours. Earlier, many schools lacked basic medical supplies, causing delays in providing immediate care.

With the kits now available, teachers can promptly handle cuts, bruises, nosebleeds, and sudden illnesses, helping reduce health risks and ensuring children feel safe at school. This support has improved school health preparedness and contributed to safer, child-friendly learning environments.

WATER SANITATION & HYGIENE PROGRAM

The WASH program aimed to improve access to safe water, sanitation, and hygiene practices among children and communities. It focused on strengthening awareness on hygiene behaviors, promoting proper sanitation practices, and improving WASH facilities in schools and communities to ensure a safe and healthy environment for children. These efforts contributed to supporting the overall health, dignity, and well-being of children and their families.

In 2025, Good Neighbors Bharat

Community
beneficiaries

Aligned with national priorities under Swachh Bharat Mission and National Health Mission, as well as Sustainable Development Goal (SDG) 3 – Good Health and Well-being and SDG 6 – Clean Water and Sanitation, Good Neighbors implemented the Swachh Aadat Program to promote safe hygiene practices, sanitation awareness, and menstrual hygiene management among vulnerable urban communities.

The program addressed key behavioral and knowledge gaps related to personal hygiene, sanitation, and menstrual health that often lead to preventable illnesses, stigma, and school absenteeism, particularly among adolescent girls. Through structured awareness sessions at schools and community levels, children, adolescents, and caregivers were encouraged to adopt healthy and sustainable hygiene practices.

3 GOOD HEALTH
AND WELL-BEING

BRIGHT BLOOM

The Bright Bloom Program was implemented to promote safe and dignified menstrual hygiene management (MHM) among adolescent girls from underserved communities.

The program addressed critical gaps in menstrual health knowledge, access to accurate information, and persistent social stigma that often affect girls' health, confidence, and school participation. Through age-appropriate awareness sessions and interactive discussions, adolescent girls were equipped with essential knowledge to manage menstruation safely and confidently.

By fostering awareness, dignity, and open dialogue around menstrual health, the Bright Bloom Programme contributed to improved well-being, reduced stigma, and increased self-esteem among adolescent girls. The initiative reinforced Good Neighbors' commitment to gender-sensitive programming and ensured that girls are supported to participate fully in education and community life.

School-Based Implementation through the Vidyanjali Initiative

31 sessions were conducted in government schools.

Health & WASH program was also implemented in government schools through the Vidyanjali initiative of the Government of India, a national platform designed to strengthen community and institutional support for school education. Through this initiative, Good Neighbors collaborated closely with school authorities to integrate structured menstrual hygiene management (MHM) awareness sessions within the school setting, ensuring outreach to adolescent girls in a safe and familiar environment.

These school-based interventions provided a supportive space for age-appropriate learning, open discussions, and the clarification of myths and misconceptions surrounding menstruation. Interactive sessions focused on menstrual health, hygiene practices, and self-care, enabling girls to develop accurate knowledge and practical skills for managing menstruation with confidence and dignity. By fostering open dialogue and reducing stigma, the programme helped normalize conversations around menstrual health while strengthening girls' self-esteem and school participation. The intervention also reinforced the role of schools as critical platforms for promoting adolescent health, gender equality, and sustained well-being.

Water RO &
purifier

2000+

Students
benefitted

Access to safe drinking water is fundamental to children's health, dignity, and learning. In many schools, limited access to clean water increases the risk of waterborne diseases and affects students' comfort, concentration, and overall well-being. Ensuring reliable access to safe drinking water therefore plays a critical role in creating healthy, inclusive, and child-friendly learning environments—particularly for adolescent girls who often face additional challenges related to hygiene and health at school.

To address this need, Good Neighbors supported the installation of Reverse Osmosis (RO) water purification systems in five government schools, enabling more than 2,000 students to access safe and clean drinking water every day. This intervention not only helps reduce the risk of waterborne illnesses but also strengthens children's ability to focus on their studies in a healthier and more supportive school environment. By combining improved WASH infrastructure with hygiene awareness efforts, the initiative contributes to long-term health, dignity, and sustained educational participation for children.

TOILET CONSTRUCTION & RENOVATION

In collaboration with our implementing partner, we supported the construction of one new toilet and the renovation of one existing toilet facility at Rani Chennamma Sarvodaya Kanya Vidyalaya, Jahangirpuri to address critical sanitation gaps in the school. The intervention directly benefits around 350 students, particularly adolescent girls, and involved the participation of teachers, school management, and members of the local community during the implementation and awareness activities.

The intervention aimed to ensure safe, functional, and dignified access to sanitation for students, thereby strengthening hygiene practices and improving the overall school environment. By complementing hygiene behavior change activities with essential infrastructure, the initiative contributed to better health, increased comfort, and a more inclusive learning space—supporting children's regular attendance and well-being.

The initiative aligns with national priorities under Swachh Bharat Mission and Samagra Shiksha Abhiyan, while also contributing to SDG 6 (Clean Water and Sanitation) and SDG 4 (Quality Education).

VOCATIONAL TRAINING PROGRAM

124

Enrolled in our
Vocational training
program

1 NO
POVERTY

8 DECENT WORK AND
ECONOMIC GROWTH

Under the SkillEd Project, Good Neighbors Bharat in partnership with EFICOR implemented a comprehensive vocational training program aimed at enhancing employability and promoting sustainable livelihoods among youth and women from vulnerable urban communities. A total of 124 youth and women successfully completed vocational training courses designed to enhance employability, support income generation, and promote financial independence.

The vocational training program offered beauty parlour training, tailoring courses, and computer skills training. These courses combined practical, hands-on training with foundational knowledge, enabling participants to acquire job-ready skills and build confidence for self-employment or entry into the workforce.

Through this initiative, beneficiaries not only developed technical competencies but also strengthened their self-esteem, decision-making abilities, and aspirations for financial independence, contributing to improved household resilience and long-term community development.

ENVIRONMENT PROGRAM

The Environment Program was designed to strengthen public awareness on pressing environmental challenges such as pollution and climate change, emphasizing their impact on communities and future generations. It actively engaged children and youth by building their knowledge, skills, and sense of responsibility toward environmental protection. Through educational activities, campaigns, and community participation, the program encouraged young people to adopt sustainable practices and become advocates for climate action. By focusing on global environmental issues at the local level, the initiative aimed to nurture environmentally conscious citizens who can contribute to long-term ecological sustainability.

13 CLIMATE
ACTION

ENVIRONMENT AWARENESS SESSION

On the occasion of World Population Day, Good Neighbors Bharat organized an Environment Awareness Session to highlight the interlinkages between population growth, environmental sustainability, and responsible resource use. The session aimed to sensitize children and community members on the importance of protecting natural resources, adopting eco-friendly practices, and understanding their role in building a sustainable future.

As part of the initiative, a Drawing Competition was conducted to encourage children to creatively express their understanding of environmental conservation themes such as clean surroundings, waste segregation, water conservation, and green living. The activity provided a platform for children to engage meaningfully with environmental issues while promoting awareness through creativity and participation. This initiative contributed to advancing SDG 12 (Responsible Consumption and Production), SDG 13 (Climate Action), and SDG 4 (Quality Education) by fostering environmental education, climate consciousness, and active learning among children.

TREE PLANTATION

Good Neighbors Bharat promoted environmental responsibility through tree plantation drives carried out in collaboration with schools, community members, and local stakeholders. These drives were designed not only to increase green cover but also to foster environmental awareness and a sense of shared stewardship for nature among children and communities.

By engaging students, volunteers, and community leaders in planting and nurturing saplings, the initiative encouraged collective ownership of environmental protection and reinforced the importance of climate-positive action at the grassroots level.

The tree plantation drives served as practical learning experiences, linking environmental education with action and inspiring participants to become active guardians of their local environment. This collaborative effort contributed to SDG 13 (Climate Action) and SDG 15 (Life on Land), while strengthening community participation toward a more sustainable and resilient future.

PARTNERSHIP AND NETWORK PROGRAM

In partnership with the Embassy of the Republic of Korea and the Korea Trade-Investment Promotion Agency (KOTRA), came together at the Government Girls Senior Secondary School in Chaksu, Jaipur, to place adolescent girls' health and dignity at the center of action. The Menstrual Hygiene Management and Dignity Initiative reflected a shared commitment to ensuring that no girl is held back by stigma, silence, or lack of access during menstruation.

Through open conversations, participatory learning, and the distribution of menstrual hygiene kits, 285 adolescent girls were empowered with knowledge, confidence, and practical support to manage menstruation safely and with dignity. The presence and active engagement of Embassy representatives, educators, health officials, and community partners transformed the initiative into more than an awareness program—it became a visible symbol of solidarity, respect, and international cooperation in advancing girls' rights. Together, the partners contributed to SDG 3 (Good Health and Well-being), SDG 4 (Quality Education), and SDG 5 (Gender Equality)—affirming that dignity, when nurtured through partnership, has the power to transform lives.

Govt. Girls Sr. Secondary School No.2

A-Block, Janak Puri, New Delhi-110058

Ref. No. GSSS/NO-2/A BLK/JP/ 1105

Dated: 15.12.25

To

Dear Acche Padosi Samajik Seva Foundation Team,

On behalf of the entire staff and students of Government Girls Senior Secondary School No. 2, A Block, Janakpuri, we would like to thank you for your generous support.

On 12th December 2025, your team installed a new water cooler and RO system in our school. An addition that has already made a meaningful difference. Access to clean drinking water is a simple yet crucial comfort, and your contribution ensures that our students will have safe and cool drinking water through the summers, as well as clean filtered water during the cooler months.

We are especially grateful for the care and dedication your team showed throughout the process. This effort directly benefits more than 1800 girls. Helping them stay healthy and focused in their studies. Beyond the immediate impact, this step reflects your organization's deep commitment to community well-being and to nurturing young minds.

Thank you once again for your time, energy, and generosity. We truly value our partnership and look forward to working with you again to create more positive change in the lives of our students.

With sincere appreciation,

Principal

Dear Acche Padosi samajik seva foundation Team,

I, Rajiv Lamba Principal of Govt. Sarvodaya Bal Vidyalaya Matiala would like to extend my heartfelt appreciation for the outstanding activity Swachh Aard conducted on 23 December 2025 at our school.

Your team's dedication to raising awareness about critical issues and promoting sustainable practices is truly commendable. The activity was engaging, informative, and thought-provoking, and we believe it will have a significant impact on our students' understanding of these important issues.

We appreciate the time and effort your organization invested in this initiative and are grateful for the opportunity to partner with you. Your contribution to our students' education and personal growth is valued, and we look forward to future collaborations.

Thank you for your commitment to making a positive difference in our community.

Sincerely,

Principal/HOS

To

Dear Acche Padosi Samajik Seva Foundation Team,

On behalf of the entire staff and students of Government Girls Senior Secondary School No. 2, A Block, Janakpuri, we would like to thank you for your generous support.

On 12th December 2025, your team installed a new water cooler and RO system in our school. An addition that has already made a meaningful difference. Access to clean drinking water is a simple yet crucial comfort, and your contribution ensures that our students will have safe and cool drinking water through the summers, as well as clean filtered water during the cooler months.

We are especially grateful for the care and dedication your team showed throughout the process. This effort directly benefits more than 1800 girls. Helping them stay healthy and focused in their studies. Beyond the immediate impact, this step reflects your organization's deep commitment to community well-being and to nurturing young minds.

Thank you once again for your time, energy, and generosity. We truly value our partnership and look forward to working with you again to create more positive change in the lives of our students.

With sincere appreciation,

GRATITUDE TO PARTNERS & SPONSORS

We express our sincere gratitude to our dias for their continued partnership and support throughout the year. Their commitment to inclusive and sustainable development has been central to our work with children and vulnerable communities.

As a global humanitarian organization, Good Neighbors brings strong technical expertise and a community-centred approach. Their guidance has helped strengthen program design and improve implementation quality.

Through this collaboration, we have enhanced initiatives across **education, health, WASH, and community development**. The partnership has contributed to improved service delivery and long-term impact.

Good Neighbors Bharat' focus on accountability, capacity building, and system strengthening has empowered communities toward self-reliance. Their approach promotes resilience, ownership, and dignity.

We value this partnership and our shared vision of a world without hunger, where people live in harmony and dignity. We look forward to continuing our collaboration to create lasting change.
